

WEBSITE DESIGN

Built by Professionals.
Responsive, clean
& user-friendly

We combine detailed planning, eye-catching web design and optimisation to create websites that not only convey the intended message but also compel viewers to explore further. We collaborate with you from concept through to launch and beyond because, in the end, your success is our success.

Starting from \$495p/m

Domain Registration

You need to have a registered domain name in order to have a website. So register your domain with us, we have thousands of TLD's to choose from, everything from .com and .co.za to .pizza and .wtf.

Website Hosting

With our robust infrastructure we guarantee up-time of 99% so you never miss a click on your website or important emails.

SSL & SiteLock

An SSL certificate is the easiest way to increase your customer's confidence in your online business. It protects their personal data including passwords, credit card details, and more. Increase their confidence by adding SiteLock to protect your site from hackers, viruses and bots.

Ecommerce Solutions

Depending on your needs, may need to change your adjust or upscale your platform. We make sure that your migration is seamless with no data loss or downtime.

Website Addon Services

Select your combination of required maintenance, content management or content development. Whatever you require for your website we have it.

Website Backup

The fastest, most reliable website backup service, which tracks all of your changes daily. CodeGuard scales to your business and your client's business needs.

What's next?

With your site up and running you now need to attract traffic. We can help you get the traction you are hoping for. Putting in place tactics which will increase your online visibility (SEO) we can then utilise digital marketing channels (SEM, SMM) to boost your brand's visibility.

✓ **SEO** Search Engine Optimisation

✓ **SEM** Search Engine Marketing

✓ **SMM** Social Media Marketing
