

DATA

Development Compliance

If your organisation handles personal client data, you are required by law to meet certain criteria when it comes to the storing and handling of the data.

THAT'S WHERE WE COME IN - WE'RE YOUR OUTSOURCED DPO

As your outsourced **Data Protection Officer (DPO)**, we provide expert-led training to keep your team compliant with the **Cyber Data Protection Act (CDPA)** under Statutory Instrument 155 of 2024, following internationally recognised **ISO 27001 guidelines**.

HOW IT WORKS: We assess your current data security practices, align them with recognised frameworks, identify vulnerabilities, and implement essential measures to bring your organisation into compliance with industry standards. Through our ongoing collaboration with your team, we provide continuous guidance, ensuring compliance is maintained and your organisation stays ahead of evolving threats.

Our services are 100% online - ensuring efficiency and convenience.
