

SEARCH ENGINE OPTIMISATION

We look at your digital eco-system as a whole, and optimise it for peak performance.

SEO creates a symbiotic relationship between search engines and users: It makes your site easier to navigate, improves rankings, and helps more customers find you.

 **SEO Website Clean-up**

From USD \$55.00

If found that your website has numerous errors, we will need to do a clean-up before we can begin looking at the SEO potential.

 **SEO Audit**

From USD \$99.00

By carrying out an in depth analysis of your current SEO status we can guide you on the most appropriate package to take, based on where you're at and where you want to be in terms of your online presence.

 **SEO Automated Package**

USD \$49.99 p/month

With one subscription per year you are able to control titles and meta descriptions, set your targeted keywords and track how often you're using them, manage sitemaps and more. *Minimum commitment of 3 months.

4

SEO Package Four

Starting from USD \$999.00 p/month

This package works best with websites that have a large volume of pages - namely eCommerce. We will carry out monthly SEO optimisation as follows

- Unlimited keyword research
- Unlimited on page optimisation
- Search console error corrections (2 warning groups/month)

PLEASE NOTE:

There may be some tools/services we need to set up first in order to carry out monthly management. Additional once-off charges may apply.

We can also provide monthly analytics reports so that you can measure the impact that SEO management is having on your business.

What's next?

SEO is just the start. Our services also include **search engine marketing, social media marketing, website add-ons like chatbots, and app & system development.** All designed to amplify your reach, help customers find you faster, and deliver the service they expect.
