

# RADICAL CLOUD SOLUTIONS

RUN YOUR BUSINESS ANYTIME, ANYWHERE

## JUMPCLOUD

**Manage identities, access & devices** from a single location to centralise your IT management needs.

### One Identity

Connect users to their devices, servers, networks, apps, & files in a secure manner.

### Deploy resources

Secure, manage & deploy resources that employees select as the best applications for their job.

### Vendor Consolidation

Centralised IT platform designed to manage & protect identities, access, & devices.

### Open Directory Platform

JumpCloud uses open protocols to connect & handle disparate resources from a single source.

### Centralised Identity

Native, API-based integrations can be used to provision new user accounts or import & manage previously existing ones.

### One-Click Mapping

Provision varying degrees of access to all IT resources based on user group membership.

**Secure & control your organisation's activities from anywhere.**
